PROFESSIONAL SUMMARY

IT Student specializing in Network Administration and Security Management with hands-on experience in AWS Cloud Operations, digital forensics, and network configuration. Certified by Google, AWS, and Cisco, with a strong foundation in Governance, Risk, and Compliance (GRC) and SIEM fundamentals. Proven ability to build secure applications and compete in international Web3 hackathons. Seeking a remote internship or OJT in cybersecurity, IT audit, or network administration.

EDUCATION

Baliuag University | Baliwag, Bulacan

Bachelor of Science in Information Technology

Expected Graduation: December 2026

Specialization: Network Administration and Security Management

TECHNICAL SKILLS

Digital Forensics & Security: Ethical Hacking, Hardware Diagnostics, Kali Linux, Parrot OS, BlackArch, SIEM Fundamentals

Cloud & Networking: AWS Cloud Operations, Cisco Packet Tracer, EIGRP, OSPF, VLAN, ACLs, IoT

Development & Databases: Kotlin, Firebase, Android Studio, Web3

Data & Tools: Data Analytics, Microsoft Excel, System Architecture, Google Workspace

ACADEMIC PROJECTS

Palazan Alert (Capstone Project) | Developer (2026)

- Designed and developed a native Android application for reporting and monitoring local community issues.
- Engineered system architecture and front-end interface utilizing Kotlin.
- Integrated Firebase for real-time database management and secure backend data handling.

StudyFlow | Developer (2025)

- Created a mobile application utilizing Android Studio designed to track homework, exams, and project deadlines effectively.

HONORS & AWARDS

World Computer Hacker League (WCHL) | Selected Competitor (Jul 2025)

- Represented the Philippines in a global, 4-month Web3 hackathon and builder's league.
- Recognized among elite builders in high-level talent discovery focused on advanced Web3 solutions.

APAC Stellar Hackathon | Accepted Participant (Jun 2026)

- Selected to participate in the APAC Stellar Hackathon, engaging in regional development challenges.

LICENSES & CERTIFICATIONS

- Security Monitoring and SIEM Fundamentals - Hack The Box (Jul 2026)
- Career Essentials in Cybersecurity - Microsoft & LinkedIn (Jul 2026)
- Google Cybersecurity Certificate - Google (Jul 2026)
- Google IT Automation with Python Certificate - Google (Jul 2026)
- AWS Academy Graduate: Cloud Operations - Amazon Web Services (Jan 2026)
- Ethical Hacker - Cisco Networking Academy (Jul 2025)
- Introduction to Cybersecurity - Cisco Networking Academy (Jul 2025)
- Data Analytics, AI, IoT & Data Science (4 Certs) - Cisco Networking Academy (Jul 2025)
- Introduction to Cybersecurity 1 - ICT Industry Council of the Philippines (Mar 2025)
- Smartbooks and Power BI - FIT Academy (Apr 2025)
- Microsoft Office Specialist: Excel 2019 (Score: 950/1000) - Microsoft (Jun 2024)
- IT Essentials: PC Hardware and Software - Cisco Networking Academy (May 2024)
- CyberOps Associate & CCNAv7 (In Progress) - Cisco Networking Academy
